We represent and distribute many major leading brands complemented by
Sourced local and overseas products.

ABOUT US

ASM Innovative Packaging Solutions is a major supplier of premium packaging materials unequalled in the market place to various types of industries.

Our corporate ideas are simple – customer satisfaction, competitive pricing, quality products and excellent after sales service.

“WE UNDERSTAND THE IMPORTANCE OF QUALITY AND PROMPT SERVICE”

The high demands we expect of ourselves in anticipating the increasing needs of our customers ensures our continual challenge to refine and improve our products and service.

Our dedicated, workforce of skilled and committed staff takes pride, in servicing our clients to the highest possible standard and are flexible to suit their exact requirements. This combined with our continued commitment to innovation and new product development ensures the company maintains its prime market position.

Our rapid increased client base is becoming aware of our extensive product range. This combined with our competitive price structure and exceptional service has enabled us to experience substantial growth and to procure many high profile customers.

Part of our growth has included the recent acquisition of the building adjacent to our current facility, which has given us the ability to establish two new sales and distribution divisions. This has allowed ASM to offer specialised packaging to specific industries.

FOOD PROCESSOR SUPPLIES

Butchers	Cheese Manufacturers
Abattoirs	Fruit & Vegetable Wholesalers &
Fish Processors	Growers
Poultry Processors	Confectionery
Smallgoods Manufacturers	Caterers
Supermarkets	
Beverage Manufacturers	

INDUSTRIAL PACKAGING SERVICES

International Freight Forwarders	Mailing Houses
Warehouse and distribution	Steel Distributors
Pharmaceutical Industry	Removal Companies
Printing	Automotive Repair Industries
Timber	
Brick and Tile Industries	
Building Suppliers	

THE ASM ADVANTAGE

- ✓ Professional packaging solutions advice
- ✓ Ultimate versatility to suit your needs
- ✓ Response to individual market requirements
- ✓ Total customer focus and support
- ✓ Individual pricing and delivery options to ensure our clients competitive position within the industry sector
- ✓ Performance guaranteed products
- ✓ Fixed price contracts
- ✓ 24 Hour dispatch policy backed by extensive stock holdings means off the shelf availability for most orders
- ✓ Maintaining professional sales people with the highest standards who will be ambassadors for the company
- ✓ Providing leading edge consulting to ensure customers will differentiate ASM from its competitors
- ✓ Giving our customers choices along with a product range to meet their needs for the today and for the future

“ASM – OUR NAME AND REPUTATION IS YOUR GUARANTEE”

POLYESTER COMPOSITE CORDED STRAP

Polyester Composite Corded Strap is the latest development in non-metallic shipping strapping technology and most commonly used. Produced by a co-extrusion process where Polyester Filament yarns embedded in a polymer coating. Composite strapping is often referred to as "synthetic steel". Incorporating all the benefits of bonded and woven poly strapping, Polyester Composite Cords strap offers additional advantages like high abrasion resistance and the highest possible joint efficiency in the buckle.

- As strong as steel
- No sharp edges that could damage your products
- Cannot rust or rot
- Resistant to all weather conditions and U.V.
- High linear and system strength
- Very high capacity to absorb shocks during transport high retained tension due to its elastic elongation and "memory" even on contracting packages
- Fast and easy to handle
- High cross-directional strength

GLOVES

PVC GLOVES- HEAVY DUTY

G- TROJAN

Features

- Premium polyvinyl chloride(PVC)
- Extremely flexible
- Seamless cotton liner
- Wet and dry grip
- Double dipped, plus triple layered between thumb and forefinger
- Excellent protection against many acids, oils and chemical
- Rough grip palm
- Protection against abrasions and light cuts
- 30 cm length
- Reusable

Uses include

- Mining
- Automotive industry
- Petrochemical and oil refining
- Chemical processing/ clean ups
- Fisheries
- Pharmaceutical
- Farming
- Heavy industrial

COLD STORAGE GLOVES

G- COLDIE

Features

- Polycotton
- Fleece lining to keep your hands warm
- Textured rubber palm coated for firm wet and dry grip
- Rubber protected thumb
- Good grip
- Warm to wear
- Great dexterity is uniquely retained whilst providing snug warmth
- Reusable and washable

Uses include

- Cold storage areas
 - Coolrooms
 - General warehouses
 - Outdoor work in cold weather
- Conditions

COLD STORAGE GLOVES

G-THERM

Features

- Polycotton
- Brush lined for extra warmth
- Keeps hands warm
- Good dexterity when worn as an under glove
- Reusable
- Washable

Uses include

- Cold storage areas
- Freezers
- Fisheries
- Cold weather work

GLOVES

G- FOAM

- Nylon= breathable and flexible
- Foam nitrile palm coated=good grip. Foam feature enhances flexibility
- Foam nitrile= resists abrasions, cuts and punctures and also resists oil
- Reusable and washable

INDUSTRIAL GLOVES

G- TAIPAN/TIGER

- Provides outstanding grip, dexterity and feel
- The latex offers water resistant protection on palm
- Lightweight and feels like a second skin

TAIPAN

-13 gauge black premium nylon with black latex palm

TIGER

-13 gauge fluoro yellow premium nylon with grey latex palm

G- PRECG

- Nylon= breathable and flexible
- Polyurethane palm coated= grip and abrasion resistance
- Outstanding dexterity
- Fingertip sensitivity
- Excellent abrasion resistance
- Good tear and abrasion resistance
- Reusable and washable

G- PRECPLUS

- Nylon= breathable and flexible
- Water based polyurethane palm, provides outstanding feel and touch, great grip
- Soft smooth feel
- Increased comfort
- Good abrasion resistance
- Reusable and washable

G- GRABBIT

- Textured rubber crinkles finish. Grab and grip power of crinkled rubber palm
- Seamless polycotton liner
- Excellent grip
- Reusable and washable
- Flexible and comfortable

MATTING

M-CLASSIC

ENTRYMASTER®CLASSIC No. 200

Entrymaster Classic has proven itself time and time again as an excellent performing polypropylene entrance mat. Entrymaster Classic has a rubber-reinforced profile to prevent the pile crushing, even in the highest traffic areas. Entrymaster 200 also features the same 'Water Dam' edge with retains dirt and water. *High traffic

I-POLYRIB

POLYRIB 500

Durable polypropylene fibre. Vinyl back and borders. Effectively removes dirt and moisture from footwear. Medium traffic

M-ERGO

ERGO STANCE 310

A moulded rubber mat with excellent anti-fatigue properties. Flexible domed top surface. Specifically designed to massage the feet. Anti-fatigue support when working in a stationery position for extended periods of time. Provides comfort and relief for leg and back fatigue.

M-KITCHEN

ULTIMATE KITCHEN SAFE 330

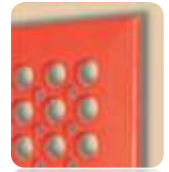

The best in kitchen mats for traction and safety on all surfaces and outstanding grease resistance. Also performs very well in contact with oil and grease.

M-INDRED

INDUSTRIAL MAT RED 826

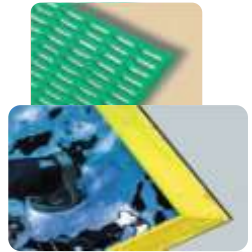

Ideal for work or preparation areas which are subject to the occasional oil spills. Suitable for the catering industry in kitchens, restaurants or take-away outlets.

M-GRIPPER

GRIPPER MATTING 195M

Similar to Tube Matting but with an added slip resistant top surface. Gripper Matting is ideal for wet, slippery areas around swimming pools, marine areas, workshops and bars.

M-BOOT

BOOT DIP MAT 230

Raised ramp edges that hold anti-germ or any liquid chemical for hygienic cleaning and sanitising. Yellow edges for high visibility and safety. Hundreds of rubber bristles which encourage boot cleaning whilst tapping dirt and grit.

STRETCH WRAP MACHINES

AP-S140

Rotowrap S140 Plus, S140 Advanced

A single programme machine. Automatic double wrap – perfect for all regular loads.

S140 Plus and Advanced – four programmes.

S140 Advanced – electronic film tension control.

Technical Data –

- Electronic control panel giving four different wrapping cycles
- Adjustable turntable speed – 1 to 10RPM
- Indexed turntable stops in rest position
- Inverter for soft start and stop
- Adjustable number of reinforcement cycles at the top and bottom of the load
- Adjustable automatic photocell load height detection
- Film tension control, S140P – manual, S140A – electronic
- Load capacity 1200kg
- Turntable 1520mm
- 240V 50Hz – single phase.

AP-S300

Rotowrap 300

Truly versatile – takes the Spinny into the realm of maximised film yields and unbeatable load security. This machine will gently wrap the most delicate of products and give robust performance called for in high-use, heavy duty applications.

Technical Data-

- Electronic panel connected to a micro processor giving five different wrapping cycles
- Lockable programme
- Power pre-stretch system up to 300%
- Indexed turntable stops in rest position
- Inverter for soft start and stop
- Adjustable turntable speed – 1 to 10RPM
- Adjustable film distributor speed
- Adjustable film delivery speed controls film lay – on force
- Adjustable automatic photocell load height detection
- Load capacity 1200kg
- Turntable 1520mm
- 240V 50Hz – single phase

STRETCH WRAP MACHINES

AP-OR1000

OR1000 – Orbitwrap

Stretch Wrap Machine – Auto or manual programs.
Excellent value for small to medium sized operations.

Technical Data-

- Power Voltage: 240V Single phase
- Speed: 10RPM
- Capacity: 1500kg
- Wrap height: 2m
- Turntable 1520mm – 80mm low profile
- Electronic screen with soft touch control for easy operation
- Front fork relocation slots
- Automatic or manual programs
- Automatic photocell load height detection
- Pause function
- Top and bottom wrap number program
- Adjustable film carriage speeds
- Adjustable turntable speeds
- Inverter for soft start and stop
- Turntable stops in starting position
- Adjustable spring brake tension system
- Ramp for pallet truck access

Options

- Wrap height: 2.5m
- Turntable: 1800mm or 2200mm

AP-OR2000

OR2000 – Orbitwrap

Stretch Wrap Machine - Up to 250% pre-stretch. Maximise your film yield for economic wrapping.

Technical Data-

- Power voltage: 240V Single Phase
- Speed: 10RPM
- Capacity: 1500kg
- Wrap height: 2m or 2.5m
- Turntable: 1520mm – 80mm low profile
- Electronic screen with soft touch control for easy operation
- Front fork relocation slots
- Automatic or manual programs
- Automatic photocell load height detection
- Inverter for soft start and stop
- Adjustable turntable speeds
- Adjustable carriage speeds
- Motorised pre-stretch system up to 250%
- Adjust film delivery speed controls film lay-on force
- Turntable stops in starting position
- Easy film threading/quick loading
- Safety emergency stop
- Top and bottom wrap number program
- Pause function
- Ramp for pallet truck access

SIAT STRETCH WRAP MACHINES

ST-WSEP

WSEP – SIAT M.J. MALLIS GROUP

Semi-Automatic Pallet Wrapper

Technical Data-

- Four automatic wrap cycles
- Seven automatic wrap programs
- Manual wrap cycle
- Motorised pre-stretch adjustable up to 300%
- Pallet height detection
- Programmable number of top, bottom and re-enforcing wraps
- 1650/1800mm turntable diameter
- 2000kg load capacity
- Soft start turntable motor
- Adjustable turntable speed
- Automatic film cut off
- Anti-tamper panel lockout

SIAT-S8

Semi-Automatic Carton Sealer

- 2000 Meer Reel Tape
- Flap compression rollers
- Side with adjustable motorization
- Locked stop emergency button
- ON/OFF Magneto-Thermic Swtch

ST-F1LP

F1-LP – SIAT M.J. MALLIS GROUP

Semi-Automatic Pallet Wrapper

Technical Data-

- Two Automatic wrap cycles
- Manual wrap cycle
- Motorised pre-stretch adjustable up to 200%
- Pallet height detection
- Programmable number of top and bottom wraps
- 1500/1650/1800mm turntable diameter
- 2000kg Load capacity
- Soft start turntable motor
- Adjustable turntable speed

ST-F1-M

F1-M – SIAT M.J. MALLIS GROUP

Semi-Automatic Pallet Wrapper

Technical Data-

- Programmable number of top and bottom wraps
- 1500/1650/1800mm turntable diameter
- Mechanical film brake
- Pallet height detection
- Two automatic wrap cycles
- Manual wrap cycle
- 2000kg load capacity
- Soft start turntable motor
- Adjustable turntable speed

STRAPPING MACHINES

AP-TMS300

Pacmasta TMS300 Semi- auto machine
Easy operation, simple maintenance.
Affordable for every budget.
Suits PP Strap width 6-16mm.

AP-TFS900

Pacmasta TFS900 Automatic machine
Auto strap feeding. Auto loop ejector.
Electronic tension control.
Suits PP Strap width 8-12mm

AP-TMS300A

Pacmasta TMS300F Semi- auto machine
Light, compact design.
External tension control.
Suits PP Strap width 6-16mm.

AP-TRS600

Pacmasta TMS300SA Semi-auto machine
Low maintenance. Stainless Steel frame.
Adjustable table height 375-825mm.
Suits PP Strap width 6-16mm

AP-TRS600

Pacmasta TRS600 Automatic machine
Durable and reliable.
Easy operation, simple to load strap.
Mechanical tension control.
Suits PP Strap width 8-15mm.

CARTON SEALER

AP-PMCS100

Pacmasta PMCS100 carton taping machine
Excellent value, increased productivity,
fully featured.
Speed – 30 cartons/min.
